

Bryan McNeil

<https://www.linkedin.com/in/bryan-mcneil-tenorio/>

Summary of Qualifications:

- 8+ years of experience as a Full Stack Developer specializing in Laravel, PHP, and MSSQL
 - Additional experience with other tech stacks like React, Python, and C#
 - Expertise in building secure middleware, automating data pipelines, and optimizing databases
 - Managed the end-to-end application lifecycle, from gathering stakeholder requirements and system design through to post-launch maintenance and continuous feature updates
 - Maintained strong communication across cross-functional remote teams to align on evolving project needs and eliminate technical roadblocks
-

Professional Experience:

Full Stack Developer

2021–2026

Educate 360

Remote

- Architected a secure, MVC-based PHP middleware system with role-based access control to synchronize data across Salesforce, Thought Industries, third-party partner's API, and the live production site
- Engineered automated data pipelines in Azure Data Factory, leveraging Logic Apps and SPROC's for bulk data processing, alerts, and daily maintenance
- Collaborated within Agile teams utilizing Git, merge requests, and a Change Management System to maintain diverse codebases (Laravel, WordPress, DNN, Legacy PHP)

Full Stack Developer

2018–2021

RS&I

Idaho Falls, ID

- Developed an automated PDF e-signature workflow for client onboarding, implementing unique document identifiers to securely track submission status and user data
 - Optimized enterprise infrastructure by deploying an internal Certificate Authority for automated SSL distribution
 - Developed a real-time employee time-tracking web application utilizing SignalR and Knockout.js
 - Participated in executing full database restorations during emergency recovery scenario
-

Education:

Bachelor of Science in Computer Information Technology

Brigham Young University – Idaho

- *Projects:* Created multiple C# console applications and WPF applications. Developed an Android application with a team of other students.
- Software Developer Internship at RR Donnelley
